

## **Go Baby:**

I keep moving  
Keep up if you wanna follow me  
I'll go to places  
You've never seen

I'll buy you wine and batteries  
I'll make you fall down on your knees

He said, "stop baby, just for a minute"  
I said "slowing down's what's making me sick"  
And everyone around me just wants to finish  
But all I wanna do is keep beginning

Go baby 8x

The stillness in this rooms  
Fills me with unease  
And the light in this room is  
Getting me to me  
If I stop I know I'll just fall asleep  
Keep me pre-occupied or like a shark I'll stop and die

He said, "stop baby, just for a minute"  
I said "slowing down's what's making me sick"  
And everyone around me just wants to finish  
But all I wanna do is keep beginning

Go baby 8x

Yea it could be easy  
And yes it could be sweet  
It could be simpler, honey  
But I wouldn't be happy

He said, "stop baby, just for a minute"  
I said "slowing down's what's making me sick"  
And everyone around me just wants to finish

But all I wanna do is keep beginning

Go baby 8x

He said, “stop baby, just for a minute”

I said “slowing down’s what’s making me sick”

And everyone around me just wants to finish

But all I wanna do is keep beginning

Go baby 8x
